

Pathways Program Goal and Countries

The goal of Pathways is to increase poor women smallholder farmers' productivity and empowerment in more equitable agriculture systems at scale.

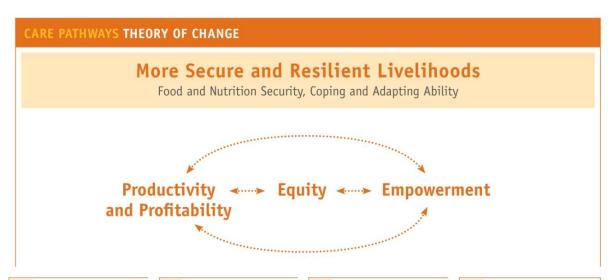

MALAWI • TANZANIA • GHANA • MALI • BANGLADESH • INDIA

Program Objectives and Theory of Change care

Objective 1: To increase the productive engagement of 52,000 poor women in sustainable agriculture, and contribute to their empowerment;

Objective 2: To enhance the scale of high-quality, women-responsive agriculture programming;

Objective 3: To contribute to the global discourse that surrounds women and agriculture.

Capacity

Knowledge, skills and relationships

Self-confidence and conviction of power

2 Access

Access to productive resources, assets and markets appropriate and reliable services and input

3 Productivity

Improved yields and income through the adoption of sustainable agriculture and value addition

4 Household Influence

Contribution to and influence over income and decision-making

CHANGE LEVER

Enabling Environment

More positive and enabling attitudes, behaviors, social norms, policies and institutions

CARE'S PATHWAYS APPROACH is based on a global theory of change that addresses the underlying causes of poverty and women's exclusion in agriculture through increased productivity and empowerment of women farmers and more equitable agriculture systems at scale. Across each of the implementing countries, CARE has identified five common and closely inter-related change levers that must be impacted to achieve the Pathways goal of more secure and resilient livelihoods.
