

Coming in July 2009!

Gender Equality Matters in Humanitarian Action

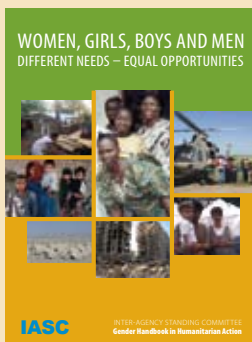

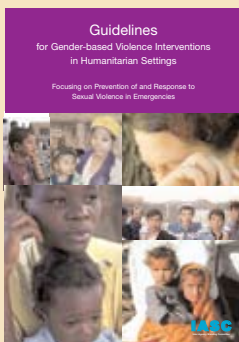

IASC announces an E-Learning course that will allow you to:

- ✓ Learn how to effectively integrate gender equality into your humanitarian programmes
- ✓ Practice your skills through an interactive, online, simulated humanitarian crisis
- ✓ Earn a certificate in gender mainstreaming in humanitarian settings

The IASC Gender Sub-Working Group (SWG) on Gender and Humanitarian Action, in collaboration with InterAction, is developing an e-learning course to help humanitarian workers mainstream gender strategies into their work. This course will provide illustrative examples to help you learn how to develop programming that ensures the needs and capacities of women, girls, boys and men are met in humanitarian situations.

This course draws on important IASC handbooks, including:

- Women, Girls, Boys and Men, Different Needs – Equal Opportunities
- Guidelines for Gender-based Violence Interventions in Humanitarian Settings

different needs
equal
opportunities

Why should you take this e-learning course?

As a humanitarian worker, you often have little time to build your professional skills and strengthen your knowledge in humanitarian programming. This e-learning resource will allow you to learn how to develop effective programming during a time that is convenient for you.

This course will provide information and scenarios which will enable you to practice developing a more effective humanitarian response. By the end of this course, you will know the basic steps that a humanitarian worker must take to ensure gender equality in programming.

The course will include information on the core issues of gender and how it relates to other aspects of humanitarian response, such as nutrition, shelter, health and gender-based violence (GBV).

Some features:

- Immediate certification upon completion
- Active learning by doing
- High-impact, visually interesting
- Immediate feedback on your correct and incorrect responses
- Applied learning with concrete examples
- Can be done individually or in groups
- Available online or on DVD
- Save your work to finish at a later time
